

## Data Analyst || Python Developer

📍 Fort Dodge, Iowa

 [linkedin.com/in/zackbowley](https://www.linkedin.com/in/zackbowley)

Accomplished certified Google Data Analytics professional who is proficient in Python. Offering three years of hands-on experience in the IT sector with a proven track record in infrastructure setup and recovery (served both residential and commercial sectors in Florida after Hurricane Michael.) Received experience in the Biomedical Engineering field and team leadership during my time in the USAF. Previously specialized in the maintenance and calibration of scientific water analysis instruments. Notably volunteered for multiple food drives, clean-up crews, and concession stands at Mile High Stadium.

## Boulder, Colorado

- Collaborated with engineers to build and fix Sievers Total Organic Carbon analyzers and analytical instruments.
